To Whom It May Concern:

I would like to take an opportunity to offer a formal recommendation for Mr. Brian Su and his staff at the Artisan Business Group (ABG). As an attorney in California, I became acquainted with Mr. Su after researching various experts on China and Korea in September 2009. I was interested in expanding my immigration law practice to include China and South Korea, and sought Mr. Su's assistance in establishing key contacts in those countries prior to traveling there in October and November 2009.

Demonstrating an incredible initiative and a strong dedication, Mr. Su undertook this work seriously and quickly developed his own plan for acquiring the information my office needed to determine if we should consider providing U.S. immigration assistance in East Asia. Mr. Su provided my office with exceptional contacts in Beijing, Shanghai, Nanjing, and Seoul. As a result of Mr. Su's initiative in setting up meetings with various Chinese immigration consulting agencies, law firms, and other Chinese and Korean experts, I have a much better understanding of the current market for legal services in these countries and a much more astute familiarity with local culture and business practices.

Mr. Su and ABG proved to be invaluable for my initial foray into the Chinese and Korean markets, and were incredibly trustworthy, responsive, and kind in their constant efforts to assist me in the U.S. prior to my visits abroad and during my travel throughout China and South Korea. I highly recommend Mr. Su to other individuals and companies seeking to expand their knowledge of the region and develop contacts for promoting their services or products abroad.

Sincerely,

Michael B. Dye
